

## Patients and Families

All of us at Monticciolo Family and Sedation Dentistry are conscientious of the concerns regarding Coronavirus (COVID-19). As a small business we are committed to staying open to treat our patients during this time. Within our offices, we are continuing to practice universal precautions as is always mandatory in a medical facility. In addition, we are sanitizing exposed surfaces such as door knobs, sink handles, counters, etc multiple times daily. Our staff are highly trained for proper sterilization protocols, please rest assured you are in good hands while you are at our offices.

If you are healthy, there is no need for you to cancel your regularly scheduled dental appointment. However, in order to provide a safe environment for our staff and patients, if you have traveled outside of the country, or gone on a cruise in the last 30 days, have been in contact with anyone who has or suspected to have COVID-19 in the last 30 days, or if you currently have a fever, congestion or shortness of breath we ask that you reschedule your appointment.

Our commitment is and always will be to provide you with quality, patient focused dental care, while keeping you safe.
